

I am writing in support of the current proposed DCRA regulation Title 24 Chapter 5.

Since I moved to the DC Metro Area many years ago, one of my favorite things about the city was the plethora of curb side trucks that served delicious, affordable food. These trucks provide a great service to the millions of people they serve every year and I think it is something that, if changed, would negatively effect the residence of DC, along with the commuters from the surrounding areas.

These vendors, such as Curbside Cupcakes, have become an institution in DC and I, for one, would be greatly disappointed if their presence on the city streets were changed.

Thank you for your time,

Amy Gibson

I'm a Ward 3 voter who works in the Golden Triangle Business District. I think one of the best innovations we've seen in downtown in a longtime is the advent of mobile food trucks and an increase in better options in local food carts.

For all but one of the last 20 years I've lived in DC. That one year was spent in Philadelphia where the variety and quality of food carts downtown far surpasses that in DC. These carts served quality fresh and healthy food -- like fruit salad made with fresh melons and berries and assembled before the customers' eyes.

I've enjoyed getting more variety in DC lately, and think the competition and innovation brought by these truck and cart based merchants is bringing benefits to consumers who live and work in the city. The drivers are innovatively using social media tools like Twitter to let customers know menus and locations -- this is what we should be encouraging, not discouraging through constricting regulations.

I understand that some local merchants and B.I.D's are lobbying the City Council to limit or kill mobile food trucks in Washington, DC. I hope you will not support such efforts.

I support the current proposed DCRA regulation Title 24 Chapter 5 that will allow mobile vendors to stay in DC. Please do not allow the introduction of any discriminatory language into these regulations. Please pass the regulations as written and protect the diverse vending options in the city.

For too long, there's been little innovation and competition in downtown lunch choices. Food trucks allow small business owners to get into the business and hopefully grow to be successful entrepreneurs. This is the type of business we should encourage, not squelch.

That DC is becoming a mecca for fantastic food options, particularly ones that drive to my office to feed me, can only be a boost to DC's reputation. Plus, it's really fun to have more options!

I heard that there is a law trying to kill the food trucks in DC. You know Food Truck in a national phenomenon. If the trucks get killed, DC residents will be left out. In this economy, where everyone is trying to stretch their dollars, food truck is needed more and more. Please help keep the food trucks around.

As a DC resident who lives and works in the downtown area, food trucks have become a welcome addition to the culinary landscape and have broadened the palate and availability of unique cuisines for residents such as myself. I believe that these vibrant new businesses are nothing but beneficial to helping the DC food scene gain respectability among the upper echelons of great food cities of the world. No city has a great food culture that is limited to traditional restaurants, truck/cart vendors are an essential addition to that equation.

Additionally, the fear of businesses that truck vendors will take business away from restaurants is ridiculous; never have I heard anyone comment that they are choosing between Georgia Brown's and Pedro & Vinny's (Burrito Man).

I heard some of the established food purveyors are trying to kill the nascent and vibrant mobile food service industry in DC. This is terrible news! Count me as a concerned DC resident who thinks food trucks offer diverse choice, fresh exciting eating options, new jobs, and a creative way to offer food service in and around the city.

Please consider that the interests of the status quo food providers may conflict with the interest of the consumer. Food trucks deserve spaces, opportunities and fill a very important niche in our portfolio of eating options. I, my family and my employees fully support the proposed DCRA regulation entitled Title 24 Chapter 5.

Let's keep DC heading in the right creative direction!
